

Psocrates Stansberry

Front End Developer | Portfolio: <https://psocratesstudio.com/>

Madison Heights, MI | psocrates@psocratesstudio.com | 313-662-4434

Summary

Passionate front-end web developer with in experience in building modern responsive user-friendly mobile first websites using HTML5, CSS3, and JavaScript. Highly adept in customer service and collaboration.

Technical Skills

Front-end: HTML5, CSS3, JavaScript

Other: Adobe Illustrator & Photoshop, Webpack5

Projects

Easybank Landing Page <http://easy-bank.psocratesstudio.com/>

Built using vanilla HTML, CSS, and JavaScript. Mobile and desktop design was provided by Front End Mentor; tablet design was interpreted. This project was excellent for practicing modal implementation, and utilizing breakpoints that fit the design and provide the user with the best experience.

Github: <https://github.com/Psocrates/easybank-landing-page.git>

Typemaster Landing Page <http://typemaster.psocratesstudio.com/>

Landing page great for practicing implementation of responsive images with different sizes based on media queries. This was built with HTML and CSS. The mobile, desktop, and tablet design was provided by Front End Mentor.

Github: <https://github.com/Psocrates/Typemaster-Pre-Launch-Landing-Page.git>

Moshified Landing Page <https://cloud-service-project.netlify.app/>

This project that taught me the fundamentals of responsive "bottom up" web construction. I learned the essentials of typography, serving images based on users' display, using third party API services; and measuring web performance. This project was provided by Coding with Mosh.
